

RESOLUTION NO. 2024-03-18-0
BURTCHVILLE TOWNSHIP
BOARD OF TRUSTEES

Whereas, the township of Burtchville, in the county of St. Clair, Michigan, request the St. Clair County Road Commission to replace the complete bridge on Fisher road located approximately 735' West of Lakeshore road (M25). Burtchville Township is willing to expend up to 10% of the cost of bridge replacement.

Whereas, the bridge has already been down graded on weight restrictions, thus limiting heavy equipment, and loads can't cross over the bridge. This costs the truckers to use extra fuel and maintenance on their vehicles by taking alternate routes.

Whereas, the existing bridge I-beams are rusting with a remaining Life span of 10-15 years.

Burtchville requests that designing of a new bridge start soon So as, to stay ahead of a failing bridge before it prematurely fails.
